

TECNAM P2010 TDI Demonstrator VH-VNQ At YCVA

Paul Southwick of *Airitalia (Aust) Pty Ltd* is bringing the Tecnam to the Aerodrome for us to have a look at.

The date is **Saturday, 5 March 2022**, below are links to the Tecnam information.

Paul says it is the best-looking aircraft in Australia and is all Italian class. It's Jet A1 burning turbo-charged diesel engine burns next to no oil or coolant and one is really only up for a \$30-\$40 of fuel per hour, with a cruise in the 132 kts range at 85%. G1000 NXI cockpit with autopilot and massive room front and back. 1050 nm range. Twin channel FADEC, single lever control (no mixture or pitch to worry about).

The CVFG along with Paul Southwick would like to extend an invitation to all interested Members to come along and have a look at the **TECNAM P2010**.

A **BBQ lunch** will be provided so if attending could you please **RSVP by February 28th** for catering purposes.

Anyone requiring more details on the Tecnam can contact Paul - **M 0424 704 010** E paul@airitalia.com.au

AVGAS REFUELLING AREA

We now have an area of approx. **42 m2** for aircraft to be refueled on. The bitumen surface has been treated so that any fuel spill will not damage the bitumen.

Thanks to Gary Sims and Peter Roberts preparing the surface and applying the product another job well done.

So please when you are refueling park on the treated area.

CHRISTMAS LUNCH DECEMBER 12th

Great to see all Members who attended. All were catered for by Chef Gary Sims who cooked up a treat turkey and vegetables and custard and fruit cake for desert for all to enjoy. Thanks to all who helped out on the day and all the Members who made the effort to attend especially Mark, Max and Mia Jenkinson who flew in from Tasmania. Mark excelled in the dish washing department.
