

**AVGAS -FACILITY UPDATE**

Flying fuels delivered tank and pump on Wednesday 2nd September thanks to Clare Quarry who made a crane available to unload and county helicopters for the use of their tractor to move pump & hose reel. The old tank was removed from shelter and refilled .Gary then excavated out the shelter ready for concreting. The tank , pump and card reader will then be installed.

**AGM - 2020**

Thanks to all Members who attended ,and thanks to Peter Eaton for showing the Runway Upgrade video and another of his Whippet adventures very entertaining.

Would like to thank out going Committee Members-**Phillip Smith & Gerry Considine** thanks for your contribution and time on the Committee.

Welcome new Committee Members **Richard Elkhoury** and **Michael Mathew**. Committee member Stewart Michael flew in for the Meeting which gave everyone a good look at the Runway Lighting.

**ROYAL FLYING DOCTOR MEDICAL TRANSFER**

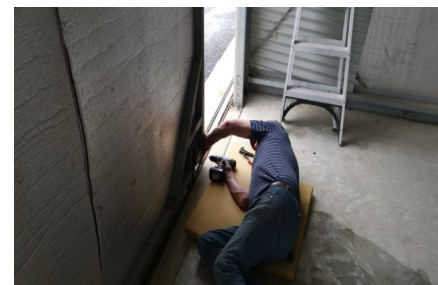

The RFDS did their first night time medical transfer from the Aerodrome in the early hours of Sept 4th. Thanks to Gary Sims who drove out to the Aerodrome and made sure there was no wildlife on the Runway a great effort. By the time Gary got home on Quarry Road the **RFDS PC-12** had landed at Adelaide Airport.

**CVFG INC HANGAR A2**

The CVFG Inc has purchased Hangar A2 from Jan O'Connor . Thanks to Peter Eaton, Peter Roberts and Paul Smith pictured fixing the door rollers and tracks they now roll smoothly just a few minor adjustments left to do ,well done.

This is yet another great asset for the CVFG Inc and the Clare Valley Aerodrome .

**PLANE ON A POLE UPDATE**

Great to see more progress on the plane. Peter Eaton, Peter Roberts and Paul Smith have been busy installing framework that will support it on the pole .They are pictured below hard at it
